BOLD CLAIM OF FUSIONISTS.

a Victory in Kansas. REPUBLIC SPECIAL.

Topeka, Kas., Nov. 14-Secretary Currin of the People's Party State Commit-tee claims that W. H. Craddock, Fusion candidate for Governor, was elected by the vote of a majority, but that so many bal-lots were thrown out under the rulings on the ballot law that he was counted out.

iots were thrown out under the rulings on the ballot law that he was counted out. Curran says:

"About three weeks before election blanks were provided to special watchers at every polling place in the State, which were to be filled out with a synopsis of the vote on Governor, Congressman and Representative, and also the number of rejected ballots, together with the reasons for rejection and who the voter intended to vote for. Returns have been coming in rapidly since election day, and I am now in a position to give the figures on enough to show the approximate result.

"I am fully satisfied that if the ballots cast, which were intended for Mr. Craddock, had been counted for him he would have had a comfortable majority. I am satisfied that if these no nomination rejected ballots were counted for the men for whom they were obviously intended we would have from 20 to 300 more county officers to our credit. We lost at least two Congressmen through the ballot law and almost enough legislators to have carried the House. These are bold statements, but the actual figures, based upon returns now on file in this office, show them to be true.

"A majority of Kansas voters who voted this very voted searches." "A majority of Kansas voters who voted this year voted against the Republican party. It remains to be seen whether the people will humbly bow to the practices which resulted in that majority's defeat."

AMERICAN FIRM GETS CONTROL Active Tobacco War Is in Progress in Germany.

New York, Nov. 14.-An active tobacco war is in progress in Germany, according to the Herald dispatch from Berlin. It is a

three-sided contest.

The most formidable adversary is a large American company, which is declared to have bought up the Jasmats factories of Dresden, and set domestic tobacco manufac-turers in Berlin agog by purchasing all the Turkish leaf in storage in Dresden, in order to secure a monopoly of the supply. German tobacco manufacturers and retail dealers are clamoring for protective meas-ures, and a counter movement to throw off the grip which the American firm has ob-tained.

To complicate matters two other American firms have just entered the field by opening headquarters in Berlin. Inasmuch as the German tobacco manufacture is not a monopoly, the fight promises to be a keen

Against Transit Company. Against Transit Company.

I. S. Martin of No. 6438 Wise avenue brought suit in Justice Cline's court against the St. Louis Transit Company for 500 damages growing out of the refusal of a conductor of the company to issue transfers for a through car to Martin and his wife. The company recently made a rule refusing to issue transfers to through cars at Forest Park.

Martin with his wife and children, were passengers on a Choutanu avenue car on October T When Forest Park was reached the conductor informed the passengers the car would step there. It is charged that the conductor refused to issue transfers. Martin and his family boarded the next through car and when he refused to pay another fare, he charges, he was put of the car.

Besides, they considered that the beauty of King's highway as a future bouleward in the wounity of Engar road would be marred by the presence of a warehouse. The estimated cost of the proposed building was 180.85.

CANNON IS DODGING TARIFF REVISION

His Friends Claim He Will Occupy a Conservative Position on This Question.

POINTS TO HIS LONG RECORD.

Western Congressmen, However, Would Like to Have a More Definite Statement From the Illinois Statesman.

The Republic Bureau, 16th St. and Pennsylvaria Ave. Washington, Nov. 14.-An effort is likely to be made by the Western congressional delegations to make Representative Cannon of Illinois declare himself on the question of tariff revision before they pledge their support to his speakership candidacy. The information is, however, that this probably will fail, as Mr. Cannon at present is engaged in steering a middle course through the dangerous channel of tariff and trust

It is well known that many of Middle West communities are determinedly seeking a revision of some of the excessively high tariff schedules. Republican campaign speakers in the late campaign made promises that the Republican party would in due season deal with these high tariff rates, and deal with them along protection lines.

deal with them along protection lines.

Every attempt to make Mr. Cannon come out flatfooted on the question of revision since he began his campaign has proved futile. He has waved the question aside with the remark that his long career in Congress states his record and his position. It is assumed that Mr. Cannon's intention is to take a "conservative" stand between the two candidates who are appropriate to care. two candidates who are supposed to repre-sent the tariff revision and antirevision sen-timent. Mr. Babcock is avowedly for revi-sion of some of the alleged overprotected schedules. Mr. Daizell is regarded only as the exponent of the cause of the ultra-protectionists. Mr. Cannon, it is said, would be the compromise be the compromise, Mr. Cannon's friends claim that he is wise

in this course; that he should make no promises, but hold himself free to carry promises, but hold himself free to carry out the policy of the Republican party as it may be outlined for the battle of 1904. An influential section of the Republican party, however, believes that now is the time to begin consideration of tariff revision, and that it should not be postponed until the people have lost patience and have turned, possibly, to another party to smash the machine which they cannot regulate. Declare They Were Cheated Out of thine which they cannot regulate.

ASKS POSSESSION OF LAND.

Construction Company Brings Condemnation Proceedings. The Missouri and Meramec Canal Com-

pany and the West St. Louis Construction

Company are engaged in a suit for the possession of 4.23 of property near the Mispossession of 4.22 of property near the Missouri River.

The controversy has been carried into the Clayton Circuit Court. Condemnation proceedings were instituted by the construction company against Isaac H. Talbot and others, who are said to be the nominal owners of the property. The canal company officials claim to be its real owners.

The West St. Louis Construction Company is building a reservoir near the place and laying pipes to Webster Groves and other places to furnish the county with filtered water. The canal company seeks to build a ditch connecting the Missouri and Meramec rivers for power purposes. The canal officials say it is essential that they cross the land in litigation.

The construction company officials on the other hand, say it is necessary for them to lay their pipes across the land. The canal engineers insist that if this is done it will necessarily cause the abandonment of their scheme, as pipes under the bed of the canal would destroy it.

Councilman Charles Gibson attended the meeting at the invitation of President Whitelaw, and, with the members of the Executive Committee, discussed an ordinance providing for the election of the Board of Freeholders, which is to frame the new Charter of the city.

Former City Counselor Ben Schnurmacher Hornes L Christia and William macher, Harvey L. Christie and William Flewellyn Saunders were appointed a com-mittee to meet Councilman Gibson and pre-pare the ordinance, which is to be intro-

duced in the Council. This committee will report to the Execu-tive Committee in the near future. The Board of Freeholders will be allowed to take as much time for the preparation of the new Charter as may seem necessary, and it is not at all certain that the new Charter will be submitted to the people at the election next spring, when six Councilmen and a new House of Delegates will be charged.

The discussion by the members of the commission showed that all of them thought it highly important that the Board of Freeholders should not be hurried in their work, even though two special elec-tions should be required to adopt the

TWO RING BROTHERS INDICTED.

Charged With Killing Rollen Adams Several Weeks Ago.

Carlyle, Ill., Nov. 14.-The Clinton County Grand Jury has returned indictments Grand Jury has returned indictments charging Eugene and Ernest Ring, brothers, of Boulder, with manslaughter. They are charged with killing Rollen Adams several weeks ago during a general fight on the streets of Boulder. The indictments are double. One says that Eugene Ring hit Adams with a club, which resulted in his death, and the other says that the fatal blows were struck by the brothers.

In one case the londs were fixed at \$2,000 each and in the other at \$1,000. Eugene furnished sureties on his two bonds aggregating \$2,000. They were signed by Zadoc Ring and Frits Ries, father and father-in-inaw respectively. The other defendant has not furnished sureties, but he says he will be able to do so. He has not been placed in jail. A continuance was granted by Judge Dwight until the May term of court. It will be one of the most notable cases in the history of the county. A hundred witnesses will testify, therefore several days will be required to dispose of the case. The defendants have retained eminent legal counsel.

All of this trouble was started by a woman, Mrs. James Hillerman of Boulder. On Monday, Octobet 13 last, she went to the store where her husband is employed and upbraided Miss Ida Carter, who worked there. The Hillerman woman was arrested. It wis after her trial that a fight occurred. One of the principals was Mrs. Ernest Ring. Her husband joined in the fray. Rollen Adams, who had a grudge against the Rings, procured the handle of a pitchfork and attempted to hit Ernest. He was disarmed and then a terrific encharging Eugene and Ernest Ring, broth-

a pitchfork and attempted to hit Ernest. He was disarmed and then a terrific encounter ensued between the two. Eugene Ring slipped up with a fence paling and knocked Adams down. He died four hours later. The dead young man received two severe wounds, therefore the question will arise at the trial of the Rings which was the fatal one.
